

Adobe Photoshop Image Creation Project Mouse Pad, Poster, T-Shirt

Choose a project from the three choices. Create an image in Photoshop within the specified sizes:

Mouse Pad - 9.375 x 7.75 inches (Giving an extra .125 - .25 for over run)
Actual size 9.25 x 7.625 inches

T-Shirt – 8 inches x 10.5 inches
Poster – 10.5 inches x 16.5 inches

Start a new Photoshop file that has the size of your chosen image. Set your resolution between 150 and 200. Background color white. Mode RGB. Create an image that incorporates these requirements:

1. Utilize at least 5 layers
2. 3 layer style effects (i.e. drop shadow, bevel emboss, outer glow)
3. 2 filters (i.e. plastic wrap, texturizer, liquefy)
4. 2 Downloaded images (i.e. from digital camera media or off the internet) No more than 3.
5. 1 or more pieces of text
6. 1 shape (vector graphic)
7. A colorized background (solid or gradient)
8. 2 layer blend modes
9. At least one original drawn image
10. Utilize at least one selection tool to select part of an image to blend in your design.

You will be graded on the overall image design making sure your overall image is clear, not pixilated, and blends together smoothly. They should look like a finished photograph with a coherent theme, not as though you stuck a bunch of unrelated items together with all different sizes.

Example Pad Design
